
Thaler–Siebers inheritance replication: released source
All 100 paired trajectories
Bands: 5th–95th run percentiles
Population
Simulation step
Without inheritance
With inheritance
Step 1,000: all pairs and mean 95% intervals
Book reference: 0.7 (not this paper's result)
Sugar-wealth Gini
Appendix ≈0.21
Appendix ≈0.35
Without inheritance
With inheritance
Approximate appendix values are descriptive references, not equivalence bounds. Pointwise population bands are not confidence intervals.
